

Want to look beyond our own walls, tapping founders, startups, and emerging technologies to move faster on the ideas that will shape retail's next decade?

Want to leverage our partner's solutions / build together with initial funding support?

Want to build something quickly to fix a problem or prove a concept?

Want to test what's credible before competitors do, backing the innovations that scale, and staying close to where the market is heading rather than reacting to it.

OPEN INNOVATION

What it is? – The moment, you want to look outside M&S for what's best in terms of tools / technology / trends – this is the place to start

Why Us?

We don't rely just on AI research and Gartner reports alone

We have an incredible way to understand where the market is leading – we follow where money goes

Puzzled? - We have an excellent team from True, *Europe's leading Consumer and Retail investment firm, its venture capital arm reviews hundreds of emerging companies a year, giving M&S an early view of the technologies set to reshape retail, and where the real value lies.*

Have a request? – Reach us

Not sure if it is a Innovation problem or not? Let us take the headache & think for you.

One less thing to worry about – Just send across the details & wait to hear back from us!

CO-CREATION

What it is? – We have an Innovation budget with all our existing partners for co-creating! If you are looking to build an innovative thing with our partners or looking for their products to be customized for us – Here is the place to begin

Why Us?

- We help you Spend Wisely!
- We can evaluate similar capabilities within our partner eco system & bring the best to you – Thanks to our sister team – Partner Management team
- We support till we have an MVP good enough for the product teams to take over

RAPID PROTOTYPING

What it is?

Quick way to resolve an existing problems that needs our engineers time or to prove a concept before getting into a detailed development

Why Us?

Excellent Innovation Squad that will help you build things pretty quickly before

We do Innovation guilds for set of engineers from various teams to build something quickly.

Thanks to James Hoare & Lisa, our Engineering community sponsors.

RAPID PILOTS

What it is?

Your gateway to become a pioneer in the industry!

Test things before our competitors do!

Break the cycle of waiting to be proven by others & miss to lead without spending any money!

Why Us?

We help you Spend less, Save more & still lead the market!

How we bring in Robots, smart carts & other exiting things to test with no cost from your budget – That's our Innovation Team's Magic!

Smart POS with camera
for real-time detection at
self-checkout.

WGSN

Trend forecasting and
consumer insights for
future-ready decisions.

Working capital solutions
that strengthen supply
chain resilience.

Re-commerce partnership
driving circular fashion
and value.

AI video analytics turning
shopper behaviour into
insights.

AI-driven digital
experience optimization
across channels.

AI-powered content that
connects with customers
at scale.

AI-generated content
accelerating product
development and go-to-
market

RE_SKINNED™

Digital re-commerce
solutions unlocking
circular retail
opportunities.

Recipe-to-basket
experience that inspire
and convert.

Shepper.

Data driven retail and
field executions at scale.

SOJO

Circular fashion solutions
that extend product life
and reduce waste.

[PERSADO]

AI-powered personalization
improving customer
engagement

AI customer service
assistant delivering faster
and smarter resolutions.

Retail crime intelligence
helping keep our stores
safer

Open Innovation

Discover emerging technologies and global
startups.

Co-Create

Work with partners, suppliers, and M&S
teams to solve real challenges.

Prototype

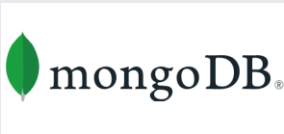

Turn ideas into tangible concepts and
proof-of-value solutions.

Rapid Pilots

Test in real environments and prove value
fast.

**Innovating Today.
Shaping Tomorrow.**

Who will we work with?

Provocative Questions running towards center in gif. Rapid Prototyping should appear in the center

Sample questions?

Have that one idea that could change the game but not sure where to start?

Loosing millions because of unavailability of engineering resources?

Need a PoC for better decision making?
